

The Effect Of Covid 19 on The Wellbeing of Children in Uganda

The assessment of COVID-19's effect on the Wellbeing of Children in Uganda was conducted between June and August 2020 by AfriChild Centre, Makerere University. The study took a retrospective approach with a focus on the three months of the COVID-19 lockdown (April- June 2020) to counter contradictions that could arise from a longer study period in the face of changing dynamics of COVID-19.
